What is the Gamblers Choice?

In this competition, a certain number of obstacles are set up in the arena. Each obstacle carries from 10 to 100 points according to its difficulty. Points for each obstacle will be marked on the course. Combination obstacles are not allowed. The obstacles will be built so that they can be jumped in both directions.

Each competitor has 30 seconds. During this time, he may jump all the obstacles he wishes in any order and in any direction. The competitor is credited with the number of points carried by each obstacle that he has jumped correctly and without fault. No points are awarded for an obstacle knocked down.

The start and finish line will be marked. Sounding the whistle signals the rider to proceed to the start and begin; the whistle also declares the end of the 30 second round. The competitor must then cross the finish line in the proper direction to allow his time to be recorded. If he does not cross the finish line, he is placed last of the competitors with the same number of points. During the round, competitors may cross the start and finish lines in either direction.

When the fixed time of 30 seconds occurs the whistle will signal. If the fixed time is reached at the moment when the horse is already taking off (front hooves off the ground), this obstacle counts if it is correctly jumped.

Any obstacle knocked down during a round will not be rebuilt; if it is jumped again, no points will be credited to the competitor. The same applies for knocking down an obstacle in a disobedience or for displacing a lower part positioned in the same vertical plane. In the case of a disobedience without a knock-down, the competitor may jump that obstacle or continue to the next obstacle.

After a fall, a competitor must stop, retire and forfeit all points. The competitor who has obtained the highest number of points will be declared the winner. In the event of equality of points for first place, there will be a single jump-off according to the same formula with a fixed time of 20 seconds.

Each rider may only compete in the class once per height level but can enter two consecutive height levels, ie 3'0 and 3'3.

Each Gamblers Choice Winner receives a ribbon and Waredaca BUCKS \$50 award, good for any Waredaca sponsored activity.
